PROFILE

I specialize in AI development, automating workflows, and optimizing machine learning models for tasks like NLP, image recognition, and speech processing. I bring value by enhancing productivity through automation, driving innovation with rapid prototyping, and enabling data-driven decision-making to help companies achieve their goals efficiently.

EDUCATION

BSC in CSE

Southeast University 2019 – 2024 | Dhaka, Bangladesh

Higher Secondary certificate

Gaibanda Sadar Upazilla Model School and College 2017 – 2018 | Gaibandha, Bangladesh

Secondary School Certificate

Gaibanda Sadar Upazilla Model School and College 2015 – 2016 | Gaibandha, Bangladesh

Nano Information Technology(Nanosoft)

AI Engineer

01/2024 – present | Dhaka, Bangladesh

As an AI Engineer at Nanosoft, your role involves designing and deploying AI models to solve complex problems, automating workflows, and optimizing systems for efficiency. You contribute by leveraging advanced machine learning techniques, driving innovation in AI solutions, and supporting data-driven decision-making to meet Nanosoft's technological objectives.
